Source-derived reward curves; these are not training results
Main has a narrower velocity reward
Paper: 5 exp(−100 e²)
Main: 2 exp(−1000 e²)
Weighted reward before 20 ms factor
XY vector tracking error (m/s)
Equal numeric deltas: main penalty is 480×
Penalty magnitude before 20 ms factor
Paper: 0.05 mean(Δa²)
Main: 2 sum(Δa²)
RMS numeric action change across 12 joints
